David

These are State Actions and EPA does not have a copy of these actions.

Karrie or Jim,

Let me know your thoughts.

Thanks,

David

Subject: Millsboro Mountaire information request

Hi David,

I was browsing EPA's ECHO reports on Mountaire Farms' Millsboro-area plant and found some interesting compliance information. I was wondering if you had any documentation received by the EPA explaining these entries? If so, could you please send those along to me as soon as possible?

ECHO notes the plant as a serious violator of SDWA. On both 5/14/17 and 6/19/17, it is noticed that the plant's SDWIS system required a state boil water order, a formal notice of violation and the request of state public notification. All of those enforcement actions are related to a violation of the maximum contaminant level for total coliform for the periods of 5/1/17-5/31/17 and 6/1/17-6/30/17.

Could you please let me know if it's feasible to provide documentation of these items today? And if it helps, here's the link to the ECHO report I'm looking at: <https://echo.epa.gov/detailed-facility-report?fid=DE0000086>.

Thanks,

Maddy Lauria
